DESIGNING YOUR SPACE

Designing a successful supermarket involves many factors: Creating a well-planned out design that ensures a positive customer experience, adhering to regulations, and keeping food products of all types in their freshest and most ideal conditions.

GTI Designs offers both design-planning expertise, as well as a series of modular and custom display cases, multidecks, as well as semi-vertical and grab & go displays that ensure your products are both eye-catching and at their freshest!

Multidecks, Refrigerators, and Freezers

GTI Designs offers a selection of Multidecks, Refrigerators, and Freezers all with various size options and features, including: Under-shelf LED lighting, plexiglass stoppers and organizers, as well a remote or plug-in condensing unit.

FRUTTA E VERDURA

Futuro Open Air Multideck for Produce

Chilled United Multideck for Beverages

Futuro with Full Vision Doors

Island Displays

Island Displays are a great option for supermarkets and do especially well in high traffic areas. Our island displays are available in multiple temperature options and sizes. With heavy-duty casters that are easily positioned wherever you suitable in your store or space.
