YOUR SUCCESS IS OUR RESPONSIBILITY

Dade Coolers (Dade Engineering) is a USA Manufacturer, headquartered in Miami, Florida. We provide cold storage solutions from **design to installation** ensuring your temperature-controlled products are code compliant for optimal performance.

OUR PRODUCTS

- Walk-in coolers, freezers & combination
- Beer coolers and caves
- Commercial refrigerators & freezers
- Store merchandisers
- Insulated storage warehouses
- Mortuary compartments
- Floral / Nursery / Greenhouse
- Healthcare cold storage
- Parts - replacement & repair

COMMERCIAL & INDUSTRIAL INSULATED METAL PANELS FOR CUSTOM COLD STORAGE - WAREHOUSE FACILITIES

Insulated metal panels specifically designed and constructed for use in the walls, ceilings, and floors of cold storage facilities and warehouses play a crucial role in creating and maintaining controlled environments for the storage of temperature-sensitive goods.

Dade Industrial & Commercial Panels are insulated metal panels composed steel skins laminated to a minimum of 1.6" polyisocyanurate foam core (minimum 2.3 pcf density). They are made to order with custom measurements that avoid waste and measure up to 39 ft. in length and usable width of 1000mm/39 3/8".

WARRANTY & CERTIFICATIONS

Warranties from 1 to 50 years, UL and UL7 approved, NSF and EISA certified and code compliant in Houston, Texas.

DADE DIFFERENCE

- **Chrome-plated, spring-loaded hardware** to perform under the harshest environments.
- Pre-engineered panels with air-tight channel tooling to optimize temperature with **adjustable cam locks**.
- Styrofoam Panel Core 20 Extruded Polystyrene, **closed foam cell, XPS** standard insulation.
- **LED, vapor proof, digital controls** - door alarms, temperature readings and light monitors to choose from.
- Warranties, certifications and test standards – From **1, 5, 10, 15 to 50 years**.

ABOUT US

Dade Coolers (Dade Engineering) has been manufacturing cold storage panels since 1953. Our product range includes **walk-in coolers and freezers, beer coolers/caves, store merchandisers, commercial refrigerators & freezers, cold storage rooms, and mortuary compartments.**

We use top-quality materials and the latest technology to ensure our products are of the highest quality and exceed local building codes.

Additionally, we are a **Heatcraft OEM distributor** and partner with top vendors such as **TurboAir, Copeland, Tecumseh and Weiss Instruments** for **refrigeration parts.**

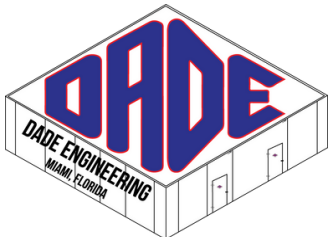

OUR SERVICES

- Site surveys
- Project management
- Customized quotes
- Standard quotes in 24 hours
- Blueprints for permit submittals
- Customer service
- Engineering services
- CAD drawings
- Installation diagrams
- Quick Ship program
- Final permit inspections

OUR COMMITMENT

To manufacture the highest quality products for every application, delivering the perfect cold storage solution tailored to each customer's needs. From concept to completion, we stand by our dedication to excellence, reliability, and performance in every project."

Turn-key solutions from design, to installation, and parts.
We have you covered from
concept to completion, and compliance.
