WINE CELLAR

BY GTI DESIGNS

WWW.GTIDESIGNS.COM

Step Into Luxury

The Wine Cellar from GTI Designs is the perfect combination of temperature and humidity control. Offering a solution for all of your wines – red, white, rosé and champagne.

This climate controlled wine cellar offers a visually elegant, glass-fronted modular design. Available in different dimensions, and styles. This exemplary walk-in display is a perfect addition to almost any food service concept.

Technical Specifications

Double Paned Patented Glass System

Optional Shelving & Storage Available

Auxiliary Refrigerated Units for
White Wine & Champagne

User Friendly Temperature Control

Traditionally, constructing a glass-fronted wine cellar is a very expensive, and work-intensive undertaking. Often requiring different services from multiple vendors. The Wine Cellar by GTI Designs makes this gorgeous feature more accessible, cost effective, and efficient than ever!

- Sound Dampening System
- Patented Technology for full Climate Control
- Options for Red and White Wines
- Visually Stunning Design
- Modular Unit, Flexible for Any Space
- LED Lighting for Enhanced Display
