More Convenient Than Ever

Quality displays cases, merchandisers, equipment, and proper planning are all imperative for a successful Convenience Store.

By providing a multitude of food service solutions under one roof, GTI Designs makes creating the vision of your shop or store easier and more affordable.

Everything you need to set yourself apart from start to finish!

Grab & Go Displays

Convenience stores without grab and go displays wouldn't be very convenient at all. GTI Designs offers merchandisers for both hot and cold foods, beverages, and pre-packaged meals. Traditional Grab and Go Displays, as well as Upright Glass Door Refrigerators and Freezers, all with a multitude of options and features.

Fresco Combo

Bringing together the self-service sale of packaged products and fresh foods service in a single cabinet!

United

The ideal vertical merchandiser for convenience stores. Available for hot and colds foods, as well as pre-packaged meals and beverages.

Fresco Impulse

The Fresco Impulse Display has 3 options in Grab n Go Service Units: Refrigerated Top and Bottom option, Refrigerated and Ambient/ Dry Top section.

Vista

A flexible, space saving display with three adjustable shelves and four exhibition levels. Curved and Straight Glass available.

Futuro Multideck

The Ultimate Multi-Deck for food retail. Extremely customizable, with multiple options for doors (or no doors) and temperature.

P-Quadro

Featuring a bold, eye-catching design and energy efficient system. Easy opening rear entry for quick restock.

Equipment

For convenience stores many pieces of equipment are necessary. From integral components of any food retail location, such as Stainless Steel Back Bars, to specialty equipment designed to set your business part.

All GTI Deigns equipment is warrantied and backed by our Nation-wide Service Network!

Stainless Steel Back Bars

Customized to Your Business

Perhaps more than any other piece of food service equipment, the Stainless Steel Back Bar represents customization. With an innumerable series of options for size, style, temperature settings, and uses. GTI Designs' has experienced representatives ready to help you to create the perfect back bar for your individual needs.

Ice Cream and Frozen Drinks

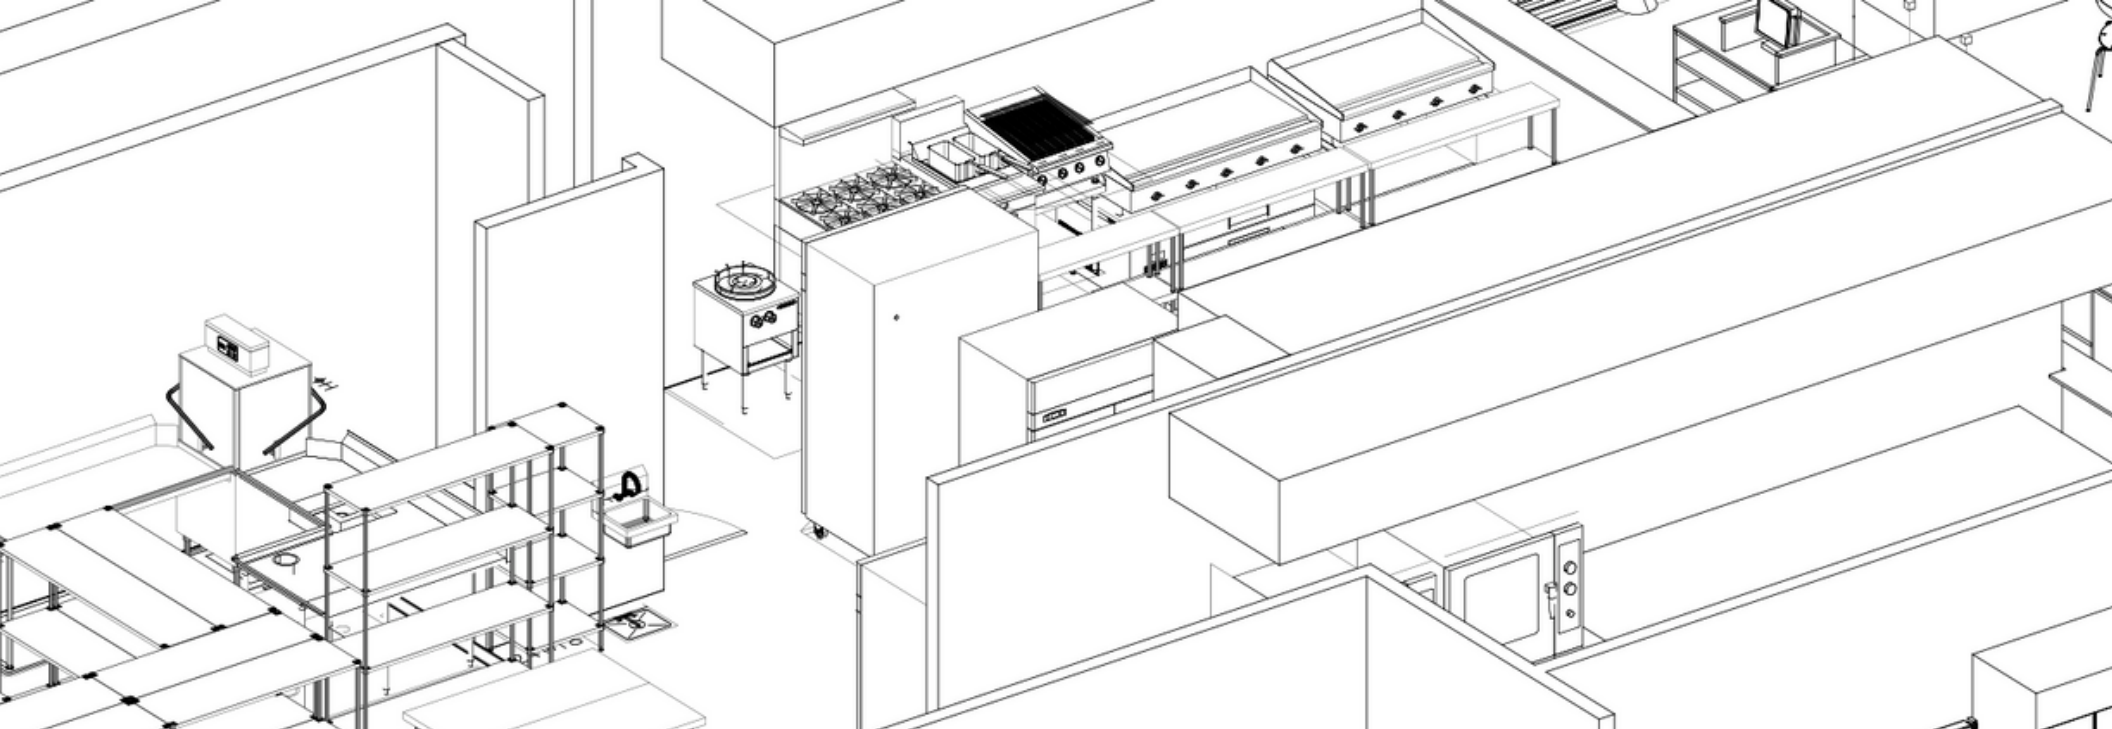

Small Treats, Big Profits

With high margins and low production costs, adding Ice Cream, Frozen Yogurt, Gelato, and/or Slush Drinks to your Convenience Store is a great way to increase profits all year round!

GTI Designs offers some of the best machines on the market for the in-house production of Frozen Desserts. Many of these units are counter-top ready and all of them are extremely easy to use, clean, and operate.

Designing Your C-Store

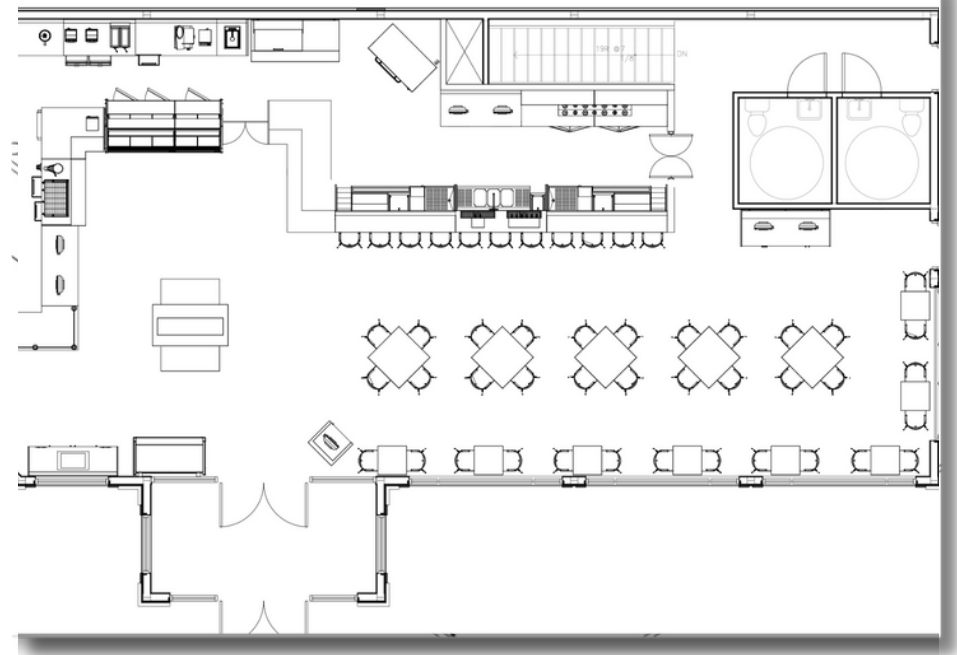

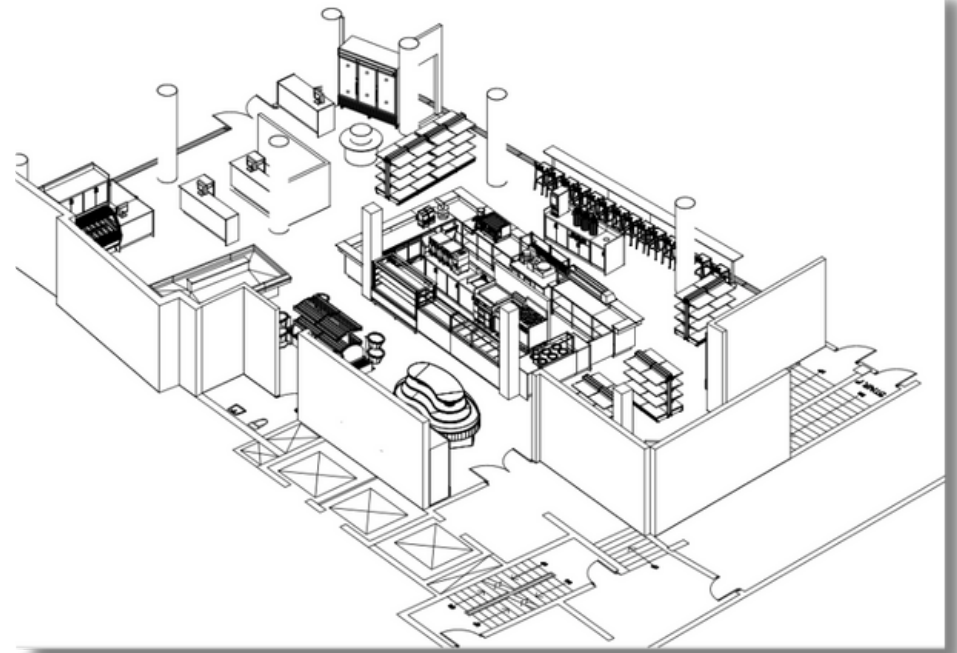

A Turn Key Solution

GTI Designs has 30 years of experience providing solutions to food service locations across all of North America.

Although all of our services and products are offered separately, many of our customers rely on us as a comprehensive solution. Able to provide displays and equipment as well as design expertise.

Our design team is available to help you create the shop of your dreams and set yourself a part.

See your location before construction beings with full 2D and 3D renderings!
